Portfolio : anjamul.vercel.app

SUMMARY

Results-driven Computer Science & Engineering professional with 4+ years of expertise in full-stack MERN development, ERP software architecture, process automation, and database management. Proven track record of architecting scalable web applications, engineering interactive management dashboards, implementing robust CRUD operations, and automating complex operational workflows.

EXPERIENCE

Admin & Accounts Officer
Biozone Medical Services | 06/2026 - Present

- Streamlined daily administrative and financial operations by maintaining accurate digital ledgers and transaction records.
- Managed accounts payable and receivable, closely monitoring customer and supplier dues to ensure healthy cash flow.
- Automated routine administrative workflows, reducing manual data entry errors by 25% and speeding up patient billing cycles.

IT & Accounts Manager
SKS Holdings LTD. | 09/2025 - 04/2026

- Directed corporate IT infrastructure and financial accounts management, bridging technical operations with accounting requirements.
- Spearheaded the deployment of internal digital tracking systems to monitor corporate inventory, payroll logs, and supplier ledgers.
- Reduced financial reporting turnaround time by 30% through structured data consolidation and automated invoice generation.

Assistant Distribution Excellence Officer (ADXO)
Abul Khayer Tobacco Co. Ltd. (AKTCL) | 01/2025 - 04/2025

- Monitored regional distribution networks, ensuring high execution standards across supply chain and sales tracking points.
- Analyzed daily field performance metrics and sales data via management dashboards to identify bottlenecks.

Executive IT Engineer
Ornate Group Ltd. | 05/2023 - 08/2023

- Maintained enterprise hardware, network nodes, and internal software systems to guarantee uninterrupted daily operations.
- Provided rapid technical support and troubleshooting for staff across multiple departments, resolving connectivity issues.

SELECTED PROJECTS

Prime Hisab (AMTech Solutions): Architected a multi-tenant Enterprise Resource Planning (ERP) platfor streamlining HR workflows, payroll management, inventory tracking, and process automation.
